

## Congratulations to the 2018 Marcia Lovell Award Recipients!

On October 27<sup>th</sup> at MaineAEYC's fall conference, seven Marcia Lovell Awards were presented to a group of outstanding early childhood professionals. MRTQ PDN created the Marcia Lovell Award for Innovation in Early Care and Education to recognize outstanding early childhood practitioners who make significant contributions to the children, families, and communities in which they work and embody the ideals for which Marcia advocated:

- Better lives for children
- High-quality early education experiences
- Support for all children, including those most at risk and with disabilities
- And the belief that the arts are an integral part of early education programs

Marcia Lovell (1942 – 2005) was a friend and dedicated advocate for the importance of high-quality early childhood experiences. Marcia cared deeply about young children and their families and worked diligently to support healthy, responsive systems. She worked at the Maine Department of Health and Human Services Office of Child Care and Head Start, where she was a program specialist with more than 20 years of experience. Marcia was instrumental in the development of many early childhood programs and initiatives in the state of Maine.

## New Splash Page Helps with Search for Early Childhood-Related Information

To connect with the redesign of our website (see page 2 for new links!), MRTQ PDN has also created a "splash page" to help the public connect with our services. When an individual searches for key phrases like "child care Maine," "daycare Maine," or "early childhood training Maine," they'll be directed to:

<https://earlycaremaine.org>

This splash page will direct people to the site that will best meet their needs – professional development for practitioners, child care program search for families, or information about *Quality for ME* for information about Maine's quality rating and improvement system. Clicking on a circle will bring you into the designated site!
