### Executive Summary

During July, August, and September of 2017, Maine Roads to Quality Professional Development Network (MRTQ PDN) has continued its work toward promoting professionalism in the field of early childhood care and education and increasing the quality of care offered through the provision of a statewide system of professional development. The following are a selection of highlights of the work completed by MRTQ PDN during this quarter:

MRTQ PDN staff have arranged for a Maine-specific code to be used on the Better Kid Care website, with monthly reporting of provider completion from Better Kid Care to the MRTQ Registry. As of September 30, 2017, a total of 2,528 practitioners have completed the training.
